

CODE NETWORK

SPONSOR PROSPECTUS

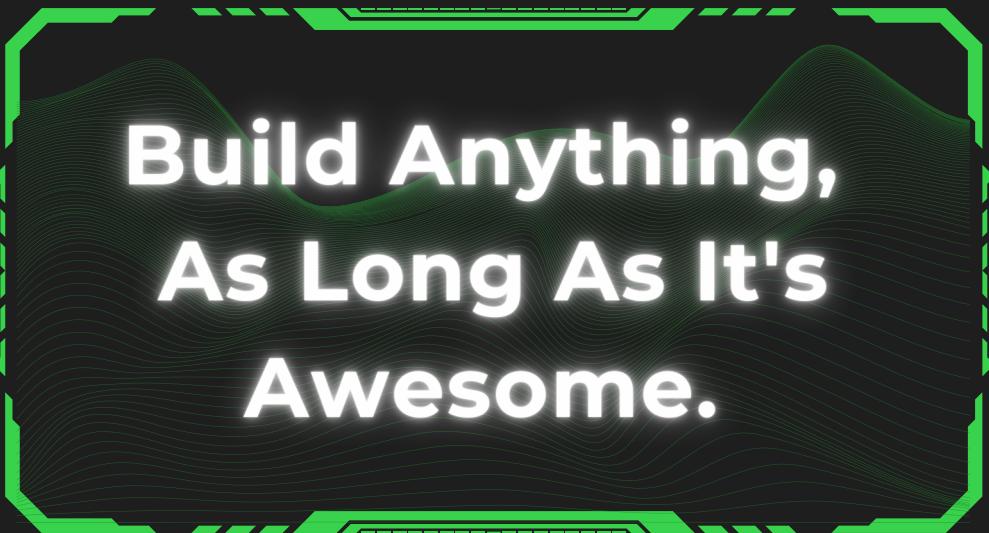

WHO WE ARE

Code Network is a **student-led organisation** dedicated to fostering a strong developer community for anyone interested in code. We seek to develop our members' skills through regular talks, workshops, and Hackathons. We also offer networking opportunities and social spaces for students to communicate, collaborate and most importantly, **build something awesome**.

OUR MOTTO

A central graphic element consisting of a dark rectangular box with a green dashed border. Inside the box, there are several thin, wavy green lines forming a background pattern. Overlaid on this pattern is the text "Build Anything, As Long As It's Awesome." in a large, white, sans-serif font.

**Build Anything,
As Long As It's
Awesome.**

OUR OBJECTIVES

1. Share knowledge from alumni, professionals, and leaders in industries.
2. Collaborate, practice, and develop skills in creating quality projects.
3. Meet and network with students and members of the tech community.

HIGHLIGHTS

Weekly Events

During semester, we host weekly events at QUT's Gardens Point campus. In 2023, these included workshops from industry speakers, coding challenges, and of course, social events.

Our talks are insightful and technical. There's something for everyone to take home, be it first-year or final-year students, or even those who were currently working in the industry.

Signature talks we hosted this year included: 6 Key Things of Software Development by Peter Laurie, Modernising the Tech Stack for Enterprise ERP by Matt Baker (TechnologyOne), and Driving Solutions with Machine Learning by the Data and Analytics Team from Rio Tinto.

QUT Tech Clubs Industry Night

Each year, we co-host the QUT Tech Industry Night in partnership with Women in Technology, White Hats, Reality Labs, and Games Development Club.

The aim of the event is to provide students with a more in-depth understanding of the IT industry. The event sheds light on the work that different companies do within the IT field.

To ensure attendee involvement, the 2023 event included a panel of industry representatives from a diverse range of interests, such as software engineering, game development, digital consulting, cyber security, crypto-currency, artificial intelligence and machine learning.

CARE-Con Industry Day (Engineering)

Coming again this 2024!

CARE-Con is committed to expanding the opportunities available to engineering students through collaborative club involvement. The event's primary purpose is to help establish connections with industry organisations through seminars and networking events.

CARE-Con 2022 featured company presentations, Q&A panels, and a trade floor where companies can show off their latest creations. This gave students a great chance to learn firsthand about their chosen field and the exciting work that was done within. This also allowed them to directly network with and hear about various job opportunities from industry representatives.

Unfortunately, we were unable to host CARE-Con in 2023 due to issues beyond our control. However, we look forward to bringing this event back bigger and better in 2024 in partnership with the QUT Aerospace, Robotics, and Electrical Engineering Clubs.

Winter Hackathon at The Precinct

Our premier event of the year!

Our Winter Hackathon is the premier opportunity for our members to “Build anything, as long as it is awesome!” Over two and a half days, attendees form teams and work to build the most awesome projects.

The Winter Hackathon is an excellent opportunity for sponsoring companies to interact with our members and share the cool projects you too are working on.

In 2023, we had 77 attendees spread across 18 teams! Our attendees include mix of students from first to final year as well as professionals who are already working in industry.

SPONSORSHIP PERKS

Company Shout-out

At the beginning of every event, we will let our members know that you have sponsored our club and tell our members a bit about who you are and what you do.

Opportunity Promotion

Do you have an exciting opportunity that you would like to share with our members? Let us know and we will share it with our members through our available social media platforms.

Industry Representative Invite

When we organise an industry networking event, we will extend an invite to your company for you to send along a representative to connect with our members.

Industry Speaker Invite

Depending on the format of the event, we will also ask your representative if they would like to speak at the event, such as on an industry panel.

In-Semester Collaboration Event

We will work with you to run a collaboration event that meets the interests of our members and your organ

Winter Hackathon Judge Invite

We will invite you to send a representative from your company to be on the judging panel at our 2024 Winter Hackathon. This also gives you the opportunity to network with our members.

Winter Hackathon Partnership

Your company's representative on the judging panel will be invited to speak for two minutes about your company. Your company's logo will also be visible throughout the event and on all prize certificates and you will be able to share merch with attendees.
